

SHIPPING TO MULTIPLE DESTINATIONS – STEP BY STEP GUIDE

The process of shipping to multiple destinations is not complicated but there are a few pointers that make it easier. This Guide walks through the process in considerable detail, but you will find most steps quite intuitive.

Step 1: Locate the item(s) you are going to send. In the quantity field, **type the total number of that item(s) that you want to send. For multiple items, add all products to your cart before continuing.**

Step 2: Stay on the product page and in the upper-right corner, **click the box “View Cart”**. This takes you to the “Shopping Cart” page where your product, quantity and pricing are shown.

Step 3: Under the section “Cart Totals”, **click “Proceed to Checkout”**. This takes you to the “Checkout” page.

Step 4: **Click “Set Addresses”** in the first bar under the page title “Checkout”. This takes you to a page titled, “Add a New Address”.

Step 5: **Add the complete name and address of the first person you are shipping to. At the bottom, under the “Zip” field, click “Save Address”.**

Step 6: This brings you to, “SHIPPING ADDRESSES”, where you **click, “Add a new shipping address”** (note: on the page it takes you to, “ADD A NEW ADDRESS”, you will see any previously saved addresses at the top of the screen).

Step 7: Under the “ADD A NEW ADDRESS” header, **complete the name and address of the second person** you are shipping to. Again, at the bottom, under the “Zip” field, **click “Save Address”**.

Step 8: You will be returned to the page you were on in Step 6, “SHIPPING ADDRESSES”. **Again, click “Add a new shipping address” and complete Step 7 again. Repeat this process for all recipients. Enter ALL addresses in this way BEFORE moving on to the next step where you will assign specific addresses to each product in your cart.**

Step 9: After the last name and address is input and saved, use the pull-down menu adjacent to each product line to assign the destination for that product. **Click on the pull-down menu adjacent to each item and assign a shipping address. Repeat this for all products. IMPORTANT: Do not click the “Update” button even if you changed quantities or removed a product.**

Step 10: **Once you have assigned shipping addresses to each product, click “Save Addresses and Continue”**. This takes you to the page titled, “Checkout” where you add the “Billing Details”.

Step 11: **Complete the “Billing Details” information** with the person/company whose credit card is being used to pay. The actual credit card numbers are entered at the bottom of this page.

Step 12: **Scroll down this page to the section titled, “Shipping methods”**. The product and name/address of the recipient is shown for each person. **Select the shipping method for each destination from its pull-down menu. Do this for each destination.**

Step 13: For each recipient there is also a field titled, “Note”. Here you can personalize a message to each recipient. **Type your message for that person in the “Note” field.**

Step 14: The order total is shown after the last destination block. Under that figure is where you enter payment information – either with PayPal or credit card. **Enter payment data and click “Place Order”** to complete the transaction.
